PRELIMINARY October PROGRAM SEVILLE SHAPING THE FUTURE Controversies and Innovation in Prostate Cancer Care NH Collection Sevilla Avda Diego Martinez Barrio, 8 - Seville, Spain

Scientific Directors

Antonio Alcaraz Alberto Bossi University of Barcelona, Spain

Amethyst Radiotherapy Group, Paris, France

Elena Castro Hospital Universitario 12 de Octubre, Madrid, Spain

Scientific Rationale

Prostate cancer is one of the most prevalent male malignancies worldwide, characterized by significant biological and clinical heterogeneity. In recent years, the integration of big data into clinical research and the increasing availability of predictive tools have made clinical decision-making more complex. Furthermore, new scientific evidence is challenging long-established practices, such as indiscriminate therapeutic intensification or the routine adoption of active surveillance.

The structure of this event is designed to promote open discussion between different schools of thought, with the aim of fostering critical and shared reflections on the most effective and appropriate diagnostic-therapeutic pathways. The clinical debate sessions will provide participants with the opportunity to explore the pros and cons of key treatment strategies, while keynote lectures will offer an overview of the most relevant innovations. Finally, surgical video sessions will enable practical immersion into the intraoperative management of complex and atypical cases.

Antonio Alcaraz Unive

University of Barcelona, Spain

Alberto Bossi Amethyst Radiotherapy Group, Paris, France

Elena Castro Hospital Universitario 12 de Octubre, Madrid, Spain

Vincenza Conteduca University of Foggia, Italy

Susan Evans Axelsson EAU UroEvidenceHub, Arnhem, The Netherlands

Steven Joniau Catholic University of Leuven, Belgium
Pasquale Rescigno Newcastle University, United Kingdom

Bertrand Tombal Cliniques Universitaires Saint-Luc, Brussels, Belgium

Alessandro Volpe University of Eastern Piedmont, Novara, Italy

Angela Lamont Scientific facilitator, London, United Kingdom

Octobe	er 30 th		
13:45-14:00	Welcome and introduction	A. Alcaraz, A. Lamont	
14:00-14:45	Keynote Lecture Big Data in Prostate Cancer From complexity to clinical insight	S. Evans Axelsson	
Discussion			
	Clinical Debate	Moderator: E. Castro	
14:45-15:45	Escalating vs de-escalating of therapy How to navigate therapeutic intensity	V. Conteduca vs P. Rescigno	
	Voting and discussion		
15:45-16:15	5 Coffee break		
	Clinical Debate	Moderator: A. Alcaraz	
16:15-17:15	Radiotherapy in metastatic PCa: toward metastasis or prostate	A. Bossi vs B. Tombal	
	Voting and discussion		
	Video Surgery Lecture		
17:15-18:00	Insights and unusual findings in prostate surgery A view from the operating room	A. Volpe	
	Discussion		

09:15-10:00 Keynote Lecture Personalized medicine in prostate cancer Tailoring treatment in the era of precision care Discussion Video Surgery Lecture 10:00-10:45 Innovative surgical techniques in prostate cancer Cutting-Edge Innovations in the OR Discussion 10:45-11:15 Coffee break Clinical Debate Moderator: A. E. 11:15-12:15 Active surveillance vs Immediate treatment Managing early-stage prostate cancer: to watch or to wait? Voting and discussion 12:15-12:45 Final Roundtable: Plenary discussion and wrap-up Looking ahead: insights, controversies, and unanswered questions	October	31 st	
Tailoring treatment in the era of precision care Discussion Video Surgery Lecture 10:00-10:45 Innovative surgical techniques in prostate cancer Cutting-Edge innovations in the OR Discussion 10:45-11:15 Coffee break Clinical Debate Moderator: A.
